

1st Ind.

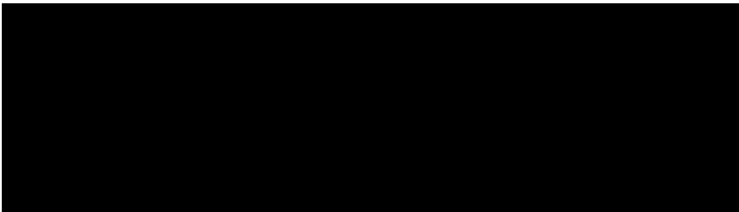

TO: Chief, Information Branch

26 April 1946

1. The comprehensive information collection problem presented in General Sorensen's paper was clearly recognized by this office, and was specifically assigned to the Information Branch by paragraphs 1 c (3) and 2 d of Planning Directive No. 14. It is believed a careful reading of those paragraphs will show that no revision is required.

2. Meanwhile, this problem is being classified as urgent from sources outside the Central Planning Staff. Hence, it is desired that you comply with paragraph 2 d of Planning Directive No. 14 not later than Tuesday, 30 April 1946.
